Bridging Tradition. Inspiring Connections.

Corporate Gifting & Event Swag, Reimagined Through Heritage Craft

A product of Beagle Factory LLP

Corporate gifting has a memory problem

1

Bought in bulk, forgotten in weeks

Diaries, pens, and hampers are interchangeable — they say "we bought something," not "we thought of you."

2

No story behind the object

Even premium alternatives rarely carry any craft, heritage, or cultural weight.

3

Nothing stands out anymore

Clients, dignitaries, and thought leaders receive dozens of gifts a year — a nicer version of the same thing still gets forgotten.

Rooted in Channapatna's traditional lacquer craft

- Hand-turned eucalyptus wood, hand-painted by skilled artisans in Channapatna, Karnataka
- A craft tradition passed down through generations
- Every gift includes a postcard telling the artisan's story and the history of Channapatna toys

One heritage. Two purposes.
